## Stockers Sell For 11c, Grass Fat 13c For A Safe Margin

Local Cattle Markets Temporarily This Week

There is no official report on the large sale at the Belle Glade Market for no official report was present in the absence of Speer, but feeders did well at 11c and fair to good grass fat steers did sell for 13c, according to reliable reports.

Following the lead of cattlemen who have been thru a drought, and those who held on when the prices started to drop only to finally have to take utility prices for good and cheap cattle ranchers in South Florida have begun to undress to their own detriment by depressing the market a couple dollars per CWT under the Chicago Market.

Still, the differential between the sale price of grass fat steers and feeder steers is enough to enable a rancher to make money at present day prices.

One cattlemen suggested that bankers are adding to the confusion by demanding loans from the rancher, although no definite cases of that have been turned up so far. Another suggested that the alphabetical financial organizations of the government should step in and take over the commercial loans, for that is one of the main reasons for their original establishment.

One such organization is the Production Credit of Miami in this area.

Another suggests that the

## Growers Shippers League To Banquet In Orlando Wed.

Mr. R. D. Keme, President of the Growers and Shippers League of Florida is asking all members to bring friends to the meeting to be held in Orlando, and especially to the banquet which will be held on Wednesday night, June 24th at 8:30 p.m. at the Orange Court Hotel.

This is a non-profit organization which works for such things as lower freight rates, and other problems affecting the Florida farmer.

The big occasion is the 30th anniversary of the birth of the organization.

## PAR-TEE LINE

Courtesy Club of the Belle Glade

Louise McWhorter and Helen McCabe won in the handicapped golf play Wednesday afternoon in the Ladies Day matches. The girls have been starting their play at 4 o'clock each summer has just about started and nine holes is all they can take!

Playing were Helen Rabkin, Zelma Betzner, Mildred Ward, Louise McWhorter, Repley Weeks, Faye Kirchman, Ruth Ziemann, Louise Rhodes, Helen McCabe and Alyce Van Landingham.

The "Little" Doc Van Landingham left Wednesday for their home on Sugar Land Mountain near Hendersonville, Gucky again.

June 23 through June 28 is Babe Zaharias week, for the Damon Runyon Cancer Fund. Organizations representing most of the nation's professional golfers have pledged their cooperation in the Tournament.

The Babe Zaharias Tournament is not limited to golfers alone, non-players can contribute and will receive either a medal or certificate, and for those who contribute \$10 or more, an autographed picture of Babe Zaharias will be given.

Major prizes will be given to the largest number of golfers who will be sponsored by Zaharias and whose picture will be given.

Louise McWhorter and Helen McCabe won in the handicapped golf play Wednesday afternoon in the Ladies Day matches.

## FULL ITINERARY FOR DISTRICT OFFICERS

Mrs. W. C. Allen, 9th District President of the Legion Auxiliary has appointed the following as her District officers: Mrs. Earl York, secretary; Mrs. Robert Riley, historian; Mrs. J. B. Jones, sergeant-at-arms. All of these appointed officers are members of local unit No. 20 with the exception of Mrs. Plank, who is a member of South Bay Unit No. 101 and lives in Lake Harbor.

For the current month, Mrs. Allen and her officers will be faced with a busy schedule covering 18 installations in the 9th district within 30 days.

Tuesday evening, June 9, this group conducted their first installation of the year at Dania at the Marshall La Brea Unit No. 394. Guest speakers at the ceremony were Mrs. Jenn Ryan, National Committeewoman and Frank Glott, present Area Commander.

Ceremonies took place at the Boca Raton Unit No. 277 and Auxiliary Unit No. 144.

Friday night services were held at the American Legion Home in Boynton Beach by the Cline-Paulsen Legion Post and Auxiliary Unit No. 164.

This installation was attended by 14 representatives of Belle Glade Post and Auxiliary Unit No. 53.

This meeting's adjournment the members and the guests were entertained with a dinner followed by a dance installation were held this week at the Allen and her officers.

Local unit No. 183, this area is bounded by Cleveland, Okeechobee, Hollywood and Jupiter and each unit within this area will be visited by the Allen and her officers to conduct the installation ceremony.

To date this group has traveled more than 150 miles and will have traveled many more by the time all installations are completed.

## Two-Way Mobile Radio Facilitates Glades Large Farming Operations

With some sixty-two two-way radios used by farmers in Glades and Orange counties for the coming season, the statement of Pop Lloyd, president of the Growers and Shippers League (now known as Hillsboro Plantation) being a proving ground for agricultural investment in the Glades is forthrightly brought to mind.

Harrison Russell as president of the Hillsboro Plantation is an agriculture expert and his field foreman's jeep and pickup two years ago.

Glades farmers enjoy the greatest uses of mechanical contraptions of their own devising and growing immediately by grasped the idea.

On one occasion this past year Walter Schlecter on his six mile farm noticed a column of smoke on what appeared to be the end of his farm. As he was busy supervising a harvest crew he was highly impractical for him to leave. So, Walter just buzzed Pioneer Growers central station with the request that Red Line be sent by plane where the area to determine just where the fire was. Red was

called, made the trip and the central station called Walter Schlecter within a very few minutes with Red's report that the fire had not reached Walter's east side.

Another typical occasion when prices are touch and go, with the margin so short that it is not wise to harvest more packages than are sold. One farmer was harvesting a crop of order and when the packages began to arrive at the packing house the salesmen and the very good quality. By calling a couple of customers in the phone, he was quickly confirmed the sale of an additional car, and so notified the crew before it was too late.

One farmer stuck in the far side of his field in a pickup called in to have some one in the field. But found that a neighboring farmer who had a truck nearby sent it on immediately by using his two-way talkie.

Emergency repairs, empty fuel tanks, accidents, and particularly harvesting, are the source of time saving and conservation of money.

## NEWS OF GLADES BOYS AND GIRLS IN THE SERVICE

The class of '32 from the Belle Glade High School played four years on the football team. Playing as right halfback in June 3, 1932, he was killed in his senior year.

He writes that he likes army life and to his military friends he would like to say hello.

Cpl. Hubert Johnson, son of Mr. and Mrs. George Johnson, Route 1, Clewiston, Fla., recently graduated from the Army's Engineer School at Fort Monmouth, N. J.

During the course, he studied the various types of explosives used in the field by the Corps of Engineers and was instructed in the use of mines and booby traps.

In the summer, a construction specialist in the 547th Engineer Construction Battalion, entered the Army in January 1951, and arrived overseas in March 1952. He holds the Bronze Star Medal and the Korean Service Medal.

## Local Lions Club Reaffirms Favor For Hoover Dike

At its regular meeting Wednesday the local Lions Club reaffirmed its previous endorsement of the proposal to name the dike around Lake Okeechobee for the only living ex-republican President.

At the session of the Legislature two years ago practically all organizations around the Lake from Okeechobee to Moore Haven endorsed the idea to name the dike for Hoover, but some were in the Legislature struck Hoover's name and substituted another.

Apparent righteous indignation fanned and fumed at the session just passed especially among political aspirants about lending aid and comfort to the republicans, and all of them were in the Legislature.

They just simply wouldn't hear to the legislature endorsing the proposal.

We have no sympathy with the republicans national programs on the things we are all for, but we see no particular advantage to the party in Florida by naming the dike after Hoover.

Mr. Hoover has expressed himself as highly pleased with the honor and before expressed his desire to attend the dedication of the dike.

Republican sources report that Mr. Hoover did come to Florida for such an event, the President may very well be persuaded to come.

With the President and Mr. Hoover, all important persons in Washington will come on invitation among which will be those Congressmen and Senators who have to do with our flood control. No legislation has been taken up in a plane with an explanation and view of the overall plan for flood control.

(Continued on Page 3)

## Welding School Is A Proven Success With 13 Graduates

School Board Member Henry C. Barwood in his brand new office in looking around to find something for the good of his district in the possibility of a vocational school in cooperation with the State Board of general vocational education.

A survey disclosed that there were several in the community, including three high school boys, who wanted welding. After further investigation the Board secured the services of Floyd Rider as instructor.

As the school has only one welding machine and it is necessary to have a machine for each two students, the use of several machines was secured from local owners for use at the two night-per-week sessions.

The machines would be carried to the class room after working hours and returned to the owners before commencement of work the next day.

Thirteen students were graduated from the course which is on the high school and college level, although several more attend in the lectures without benefit of the machines.

Only cost to the pupils is the cost of the materials which this session amounted to approximately \$5 each.

Plans are being made for other courses in the vocational training program of the State Board in conjunction with the local school board.

Among the students were men who now are practicing the profession as well as neophytes who think they want to practice it.

The story of the work was given to the Lions Club Wednesday at its regular meeting by Mr. Rider.

## LOCAL LEGION POST ENDORSES DISTRICT MEET RESOLUTIONS

Ten representatives of Everglades Post No. 26, Legion and Auxiliary, attended the District Convention held at Orlando May 19, 30, and 31.

Detailed reports of resolutions passed at the Convention were given at the regular legion meeting June 9, by delegates J. B. Jones, Lawrence Will and Jack Raskley. According to Jones these following resolutions were passed:

1. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

2. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

3. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

4. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

5. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

6. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

7. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

8. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

9. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

10. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

11. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

12. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

13. That the law, passed in June of '33, governing the G. I. time most suitable within the expiration date.

## FATHER'S DAY

There Should Be A Law Agin It!

Such a move is now being made in Washington and the Legion and other Veterans' organizations are trying to make the public aware of the danger in

Those from Belle Glade attending the convention were Mr. and Mrs. J. B. Jones, Mrs. W. C. Allen, and the Messrs. Lawrence E. Will, Jack Raskley, Woody Pierce, Elmer Kirshman, and Ward Harrison.

At the regular meeting of the Everglades Post No. 26, the Commander Jack Raskley appointed the following committee to investigate the proposed project: Lawrence E. Will, Frank Morris and N. B. Willis.

This project is to obtain a suitable memorial to the Dr. B. B. Willis, well known and equally well loved humanitarian, charter member and the first commander of Everglades Post No. 26.

Thru the channels of his professional organization Mr. Bamford has sought and found hearty endorsement and assistance in getting the bill thru Congress.

Congressman Rogers has invited Mr. Bamford to appear before the Committee when hearings are held on the bill.

## HOSPITAL NOTES

Jack Little is a medical patient at the Belle Glade Memorial Hospital this week.

Bob Newman is a patient for surgery.

## Short Wave Radios Mostly Mobile Are Ready For Storms

## SUMMER BAND TO BEGIN JUNE 22

In conjunction with the Summer Recreation program, there will be a summer band program being directed by Jack Munroe, new bandmaster, beginning Monday, 8:30 a.m. June 22, at the band building.

## ROGERS' BILL ALLOWS LANDS' DEPRECIATION DEDUCTION FOR MOORE

W. C. Bamford, local CPA has suggested to Congressman Rogers that owners of mucklands should be allowed to take depreciation for exhaustion due to oxidation, and the Congressman has come thru with it.

In discussing the matter with the Income Tax Bureau, it was found that not too much opposition would develop from the mucklands is professional property.

Thru the channels of his professional organization Mr. Bamford has sought and found hearty endorsement and assistance in getting the bill thru Congress.

Congressman Rogers has invited Mr. Bamford to appear before the Committee when hearings are held on the bill.

Charles Herman Denton, GM 2/4, age 34, of South Bay died Monday, June 15, at the Naval Hospital in San Diego, Calif.

He was a native of Sherman, Texas, coming to South Bay with his parents when a small child. He attended South Bay and Belle Glade schools and played on the Golden Ram football team. He also attended Riverside Military Academy, Gainesville, Fla., for two years.

He joined the Navy in 1948 at the age of nineteen and received his basic training in San Diego, afterward making a six months cruise to China and Japan. He served with the 2nd Division aboard the USS Prairie A.O. in the Korean area, and also with the Pacific Fleet in Japanese and Korean waters, and had served one year of his re-enlistment.

Mr. Denton was stricken a short while ago with acute leukemia and all efforts to stop it, the deadly disease failed despite stringent measures of the Navy.

Survivors are his wife, Judy Denton, San Diego, Cal., his mother, Mrs. J. B. Denton, (Continued on Page Four)

## \$6,000,000 Celery Crop Ends With This Weekend Movement Of Late Harvest

Approximately 6725 Carlots Move From Glades During 24-45 Season

Low quality and satisfactory to high prices prevail with the 1953 celery crop from the Glades to mark the finish of a year which has produced something over \$6,000,000 gross.

Compensating factors of low yield and quality for late June celery was indicated to the very end—this weekend.

According to official reports there have been over 600 cars of celery moved over the FEC this season, with 20 during the past week from Pioneer. According to reliable informants doubling this figure for the celery that moved from Miami cars and that which went by truck will about give the exact amount moving from the Glades, which will give a figure of 8714 car lot equivalents. To be added to that came up with a figure the total figure 8725, to include that to be moved the balance of the Glades.

Using an average figure of \$2.25 per acre, which is what informed dealers estimate and average, and a car lot at 400 crates, we find that a car of celery during '53 averaged \$900.

Compared with a figure something over \$6,000,000 for the season's crop of celery from the Glades.

With an estimate of \$1.00 per crate as freight, it is seen that (Continued on Page Four)

Approximately 276 children ranging from infants to fourteen years attended Vacation Bible School which began Monday morning in Belle Glade Churches.

Much interest and concern has been created among the congregation with 40 children and other workers taking part in making the Bible School a success.

At 9 a.m. the students join in group singing, followed by a Bible study, and work and other recreational activities, closing at 12 o'clock.

Commencement exercises will take place Friday, June 26.

Services were held Wednesday at Berry's Funeral Chapel, Pahokee, for Ira Clifford Nesher, died here after a long illness at the Belle Glade Memorial Hospital.

Survivors are his wife, Mrs. Myrtle Nesher, his daughter, Mrs. Joyce Albritton, Okeechobee, and Miss June Nesher, Belle Glade; two sons, Edwin and Jerry both of Belle Glade; his mother, Mrs. Sophia Elnatner, Parsons, W. Va., and four brothers and sisters in W. Va.

Burial was in Port Mayaca Cemetery.

SUGARCANE ACREAGE ALLOTMENTS DISCUSSED IN NEW ORLEANS SOON

The U. S. Department of Agriculture announced today that an informal public hearing will be held on June 24, 1953, for the purpose of receiving information and recommendations with respect to establishing farm production shares (acreage allotments) for the 1954 sugarcane crop in the mainland sugarcane area (Louisiana and Florida) as required by the Sugar Act of 1948, as amended.

This hearing will begin at 10:00 a.m. at the Monteleone Hotel in New Orleans.

It is estimated that the 1954 crop will be about the same quantity as the 1953 crop was approximately 1,000,000 tons, and it is estimated that the 1954 production will be substantially greater than the quantity in sugar required to enable the mainland cane area to fill its basic quota.

## **Extra Span of Years and Longer Life** **Mean Gracious Living — If Planned**

If you are a mature adult now, you have an extra span of years coming to you. At the present time, there are more than 18,000,000 persons aged 65 in the United States, and three more millions people can be made delightful dividends with careful planning. The increase in life expectancy makes it possible for us to trust that the life span which the first was made can be extended in terms of decades — extra decades worth planning and thought.

Home decoration experts point out that two factors deserve special consideration by the mature: — You probably will condense your belongings and move to a smaller home or apartment making "easy-care" possible — home that will give a maximum of usefulness with a minimum of demands. — You will be smart to select a few good pieces of "easy-care" furniture such as the Hilde-A-Bed by Simmons or the Hilde-A-Bed by Simmons, as central pieces in your new smaller home arrangement. These will be more worthwhile than a formal dining room, for instance, for Simmons comes in a wide range of smart fabrics and colors, and they want a pleasant result.

Life's richness lies in the possibilities such as easy-to-wash curtains and draperies, built-in bookshelves, dual-purpose tables. Age is the time for planning, and you should have a plan for your future. The Hilde-A-Bed that probably would be used only for occasional guests, for instance, can well be the center of a living room, guest room and den.

## **STATE RENEWS 4-H PROGRAM OF SPECIAL INTEREST TO GIRLS**

The National 4-H Dress Review approved for 1953 by the State Extension Service, which is open to all girls participating in the 4-H Clothing program, members learn to dress appropriately in keeping with a well-planned family budget, and to develop good, proper posture and habits of good grooming.

The popularity of this program is reflected in the enrollment of girls last year, which totaled 68,259. Simplicity Pattern Co. provides awards of honor medals to county blue award winners and an all-expense trip to the National 4-H Club Congress in Chicago next November to the state winner. Each state winner participating in the national contest will receive a leatherette sash.

Extension Agents will furnish complete information concerning these programs.

## **PEA-SHELLING IN THE OLD FASHIONED WAY** BY LEGION AUXILIARY

The blackberry pest, donated by Louis Kirchman of the School of Instruction to be held on July 12, were shelled at an informal, old-fashioned pea-shelling, held Wednesday night at the Legion Hall.

There were 17 members of the Unit and Post present. Here's what happened, told in rhyme — "cause there's nothing better to do with my time."

We gathered at the Legion Hall at a quarter 'til seven And shelled blackberry peas 'til we passed eleven.

By special request as a special treat For those who gather for instruction meet, The Champion Shelling of the whole darned lot

of the Constable's wife, Virginia Prescott. And all of us profoundly, loudly proclaimed, "It was a swell."

J. B. Jones for "Gold-bricking" fame.

These peas are to be cooked with a pig and nice fat, Henry Listen Committee, we re-merge on that!

By shelling peas, washing and scalding the lot, You can catch that hog to put in the pot.

Well, you've got your peas — we had our fun And finished the job that we begun.

The Cherokee bean plants in a Florida variety of the Indian coral tree.

## **SHORT WAVE RADIOS**

(Continued from Page 1)  
 present day facilities for communication with those of other areas is imperative.

The State Highway Patrol has from three to five cars in the Glades with connecting stations throughout the state; the sheriff's office has two Glades units on duty; Everglades Fire Control has some twenty units scattered from Ft. Pierce to Miami; Tampa and Jacksonville.

To cap this group, the U. S. Engineers has a system with stations at each of five hurricane gates, with a central system at Clewiston that talks easily with Miami, Tampa and Jacksonville.

In addition to all of these radio the City of Belle Glade has 9 units connected to the Fire Hall Station.

 hasn't been sold. We could do that with our visitors — picked ones at that. So, help food control.

With such a gathering around the Lake no television, radio or movie would be complete unless the full story was carried. Newspapers and magazines would rush to cover it.

Five million dollars worth of advertising would result for

## **STOCKERS**

(Continued from Page One)  
 price of cattle locally is out of line — below the Chicago market — and that a combination of local cattle men to set a price and not sell below that would bring the general buying business in line.

In these days of 80-odd cents for government bonds and 13¢ fat cattle, the Republicans must be squirming.

The great danger, we are afraid, is that the public will become so disgusted that they will elect a democratic Congress and it will nullify the gains of these troublesome times that we have become accustomed to associate with another party.

The mucklarks as the great potential beef producing area in southern Florida is established, and these gyrations of the money market by the smart boys will only prolong that position.

## **Donna Mario SAYS...**

**MODERN HOMEMAKERS USE MODERN HOUSE CLEANING METHODS**

House cleaning methods of today are a far cry from those of 10 years ago. Modern housewives are gradually eliminating the old-fashioned methods such as the automatic washer, the automatic dryer, the automatic ironer, the vacuum cleaner, the electric polisher, the modern mop, the modern broom, the modern duster, the modern glass cleaner, plus commercial services such as the modern laundry, window and curtain cleaning, the modern refrigerator, the modern vacuum cleaner, etc.

For instance, the modern housewife of 1953 no longer has to wash her own clothes. She can have them washed at the modern laundry, which has the modern equipment and the modern staff to do the job for her.

For instance, the modern housewife of 1953 no longer has to wash her own clothes. She can have them washed at the modern laundry, which has the modern equipment and the modern staff to do the job for her.

## **Home-Frozen Flavor**

Much of today's commercial food research has a direct application in the home — for instance, the recent study of the effect of Ac-Cent (pure monosodium glutamate) in quick freezing. Varieties of four basic foods — meat, fish, poultry, vegetables — were found to be dramatically improved in flavor when Ac-Cent was included in the pack; and to retain their natural flavor, color and texture through longer periods of frozen storage. The fact that this seasoning helps to "freeze frozen foods" is as pertinent to homemakers as it is to the frozen food processor.

The third study — nature's own flavor intensifier — can help you get the most out of your home freezer, by adding "flavor protection" to the contents of this modern-day method of food preservation. Just try chicken a complete meal with Ac-Cent, for freezing. When you decide to eat it several months from now — all the extra-fresh flavor you had to start with, will still be delectably apparent to your taste. Here's a sample menu for you to fill with home-frozen favors:

**Freezer Chicken Dinner**  
 Select a broiler or fryer weighing not more than 3 pounds dressed weight; have cut in serving pieces at market. Wash thoroughly. Shake off excess water, but do not dry. Roll pieces in a mixture of 1 cup dry-baked milk, 1 teaspoon salt, 1 teaspoon pepper and 1 1/2 teaspoons Ac-Cent until well coated. In a heavy skillet melt fat to depth of 1 to 2 inches. When moderately hot, lower pieces of chicken into it. Turn chicken to brown on all sides. Cover; lower heat, and cook 3/4 to 1 hour, or until done and tender. Or, transfer broiler chicken to rack in roasting pan; cover and cook in moderate oven 1 hour.

Cook ears and brains as usual. Add 3/4 teaspoon Ac-Cent to the cooking water, along with other seasonings.

Place individual portions of meat and chicken in three-compartment aluminum plate, freeze in freezer-weight foil, or wrap meat alone in foil and place vegetables in small covered aluminum foil containers. Freeze all at 0°F. Food may be re-heated in moderate oven (350°F) right in containers.

Florida, for the Lake Okechobee. N. C. — this yard has 61,000 acre region and 700,000 acre yards of slope which would be given a push not likely ever to be overcome.

### MOST FLORIDA COUNTIES PAY BELOW-AVERAGE SALARIES!

In 1951-52 only 9 of Florida's 67 counties paid average salaries as much as the state average of \$3,222.40—and this was \$142 below the national average! The county paying the highest average salary was \$1,395 above the county paying the lowest. Only Broward, Duval, Hillsborough, Monroe, Orange, Palm Beach, Pinellas, and Volusia counties pay average teachers' salaries above the state average.

When the term "average salary" is applied to Florida teachers it should be kept in mind that most of Florida's counties (58 in 1951-52) are below the average!

\*Includes principals and classroom teachers only.

Unless more of Florida's counties are able to pay higher teacher salaries to meet the competition of other states and of private industry, Florida can not expect to attract and hold a sufficient number of qualified teachers to man its classrooms!

Prepared by Florida Education Association

### CHRYSLER CROWN AND IMPERIALS OFFER WIDE VARIETY IN TRANSMISSION

With the introduction of a new fully-automatic transmission on Chrysler Crown and Custom Imperial models, Chrysler now offers three outstanding automatic transmissions, reports E. C. Quinn, president of Chrysler Division, Chrysler Corporation.

"Our new transmission is outstanding because it combines high performance with simplicity of design and in addition is the lightest-weight automatic transmission ever available," Quinn said.

In addition to the new transmission, top acceleration and driving performance are provided by two Fluid-Torque Drive torque converters of different types, one for eight-cylinder models and the other for the sixes. These transmissions, which have proven their rugged dependability over millions of miles of over driving, are used in conjunction with the M-60 controlled-type automatic transmission and the V-8 and six-

plished through the use of light metal parts in more than a dozen major parts.

The shifting arrangement is extremely simple and does not require the driver to look at the gear position indicator at any time. This is due to the "blind-man's" shift designed by Chrysler. In the normal position there are only two points into which the gears can be shifted by the driver—a push upward puts the transmission in neutral and a push downward puts it in drive.

When the shifting lever is lifted and pushed upward, the transmission is in reverse and when pulled downward the transmission is in low. A luminous dial on the steering column indicates which gear is in use.

### WASHINGTON NEWS LETTER

WASHINGTON—Three floor victories last week cheered us in our determined fight to maintain important federal services in Florida without imposing unnecessary burdens upon the taxpayers.

Admittedly, it is very difficult to differentiate between worthy, needed projects for which money must be appropriated and those activities or services which are boondoggles and should be eliminated. It is with that in mind that I have been seeking to protect the interest of our state.

In no sense have we gained everything that we wanted, but we have made gains and acquired some backing for the major effort we must make later—to protect the great flood control program. The score at the end of a grueling week stood:

For the airport development program: \$12,500,000 where a bipartisan effort was made to appropriate \$20,000,000.

For weather bureau operations: and increase of \$2,300,000 which will keep in operation the Orlando, Fort Myers, and other Florida bureau threatened with closing.

For citrus disease research: \$90,000 where \$125,000 had been sought (House had cut to \$50,000).

These gains are by no means certain and our major effort in the future must be to "sell" this program to the House.

NEWS NOTES OFF THE CUFF—For anybody who needs a good cook book, I'll be glad to send upon request a copy of "Family Fare."

I am due as one of the speakers on the radio hour, "Town Meeting of the Air" on ABC Tuesday evening (June 21).

Bob Glenn, of Sanford, long a leader in the railroad brotherhoods and a widely known church leader, is slated for appointment as assistant secretary of labor.

A sudden surge of appropriations measures to the Senate Floor caused most Senators to cancel speaking engagements this weekend and prevented my going to Pensacola for the DAY state convention, but, happily for the convention, I sent in my place Congressman Ollie ("Tip") Trogan, the Texas who here was wounded many

times and decorated eleven times in World War II; he is an able speaker, an effective legislator and one of the most popular Members of Congress.

### TEACHERS LEAVE FOR HOMES OR VACATIONS

With the ending of the school year several of our teachers said their farewells to Belle Glade. Some are teaching elsewhere in the fall, Miss Nancy McMahon has gone to her home town, Manchester, Tenn., and will be married this summer. Miss Ruth Ann Doody has left for Canadensis, Penn., and plans to teach on the coast in the fall. Mrs. Iren Dickinson has moved to Dothan, Ala.

John Seagle, Creston, Pa., has other plans, and Charles Dixon from Lake Worth will teach there in the fall.

Alan and Elizabeth Drake will be at the Pompano Beach High School and Mrs. Betty Blumstein will join her husband in Auburn, Ala.

Other teachers vacationing in their home towns are Miss Dot Binkley, Old Hickory, Tenn.; Miss Sara Diles, Paris, Tenn.; Mrs. Ruth Langworthy, Marshville, Ga.; Miss Kathleen Rogers, Lakeland, Fla.; Mrs. Louise Christ, Crown City, Ohio and Miss Marian Najarian of Port Orange, will spend the summer in Chicago.

Mr. and Mrs. Roy Litchfield are spending part of their vacation in North Harlow, N. C. Mr. and Mrs. Hector Queltette are in Murray, Ky., where

he is attending summer school. Mr. and Mrs. John Abbott are spending some time with their parents in Jasper, Fla. He plans to attend University of Ala.

Mrs. R. L. Murray is vacationing for a month in Palm Beach. Teachers attending the University of Florida for the 8 weeks summer course are Mrs. R. V. Allison, Mrs. Margaret Mosley, Calvin Peacock, and Mrs. Jean Lloyd, former teacher, who will be on the teaching staff this fall.

Mrs. Genevieve Gove will be one of the directors of the summer recreational program in the city park as well as Mrs. Dorothy Jones, and Herbert Miller of Palokoe.

Mrs. Margaret Earwood will attend the Art Institute, Turpan, Springs.

### SUMMER PROGRAM OF RECREATION JUNE 22

The summer recreation program will begin Monday with registration at 2:30 p.m., June 22, in the Belle Glade Municipal Park.

The County Board of Public Instruction in cooperation with the City Recreation Program are sponsors. Directors appointed for the special six weeks period are Herbert Miller of Palokoe, Mrs. Dorothy Jones and Mrs. Genevieve Gove.

Mr. Miller will have charge of physical activities for boys and Mrs. Jones will direct physical activities for the girls every day except Thursday. On

Thursdays she will conduct a reading club at the Elementary School Library.

Both boys and girls of all ages will be encouraged to check books for recreational reading. She plans to schedule a story hour every Thursday afternoon in connection with the Reading Club.

Mrs. Gove will offer arts and craft each morning in the Girl Scout Hut and will show movies in the city library two afternoons each week at 2 o'clock. She will also assist with the physical activities, working mostly with the younger children of school age.

The directors met Saturday with Mrs. C. W. McDonald, Supervisor of City Parks and recreation, and discussed plans for the program.

Among the special events that are being scheduled are swimming, a wheel parade, square dance for children and parents, talent night, field day and a pet show. The pet show will be held during the second week on Wednesday at 2 o'clock.

Look for more details of the pet show and other summer recreational news in next week's Herald.

### PERMANENT COMMISSIONS AVAILABLE TO FORMER AIR FORCE RESERVES

Former Air Force Reserve officers who declined their permanent commissions earlier this year are now eligible for a new appointment in the Air Force Reserve. The announcement was made

### RATTLESNAKE FOILED

Whip-lash strike of the deadly diamondback rattlesnake, shown above, is thwarted by the new underground trappers of a camper. These traps, wired with light, flexible Monel wire mesh, provide thigh-high protection against venomous snakes.

recently by Maj. Gen. Charles E. Thomas, Jr., commanding general of 14th Air Force, Robins AFB, Ga.

Former reserve officers who apply for a new commission must meet Air Force standards for direct appointments, and applications for extended active duty, normally required, will be waived.

The new program will afford a second chance for several thousand reserve officers within the 14th AF area who earlier this year declined to renew their commissions. The 14th AF covers 12 Southern and Southwest-

ern states from North Carolina to New Mexico. In considering applications, records of reserve officers will be checked to insure they did not decline their previous tender of appointment to avoid overseas or other hazardous duty.

Former reservists who desire to be considered may submit their applications to Commanding General, Headquarters 14th Air Force, Robins AFB, Ga.

The "Devil's Back Bone" is a low-growing succulent plant native to tropical America.

## First Calf Born in America From Frozen Semen

The first live calf ever known to have been born in America from frozen semen was a "dropped" on the farm of John and Melford Hill of Rt. 1, Janesville, Wisconsin, Monday morning, May 29th, 1953 according to a report released recently by the Wisconsin Scientific Breeding Institute, an American Breeders Service, in Madison, Wisconsin.

R. O. Conrad, Manager of the Institute reported that a number of artificial breeding organizations are experimenting with the use of frozen semen in artificial insemination, but to date, as far as is known, this calf is the first in America that has resulted from the frozen semen process.

Conrad pointed out that the British were the first to conduct experiments in successfully freezing and thawing semen. They have been successful in keeping semen frozen and of good quality, for as long as one

year. A number of calves have been born in England.

The Wisconsin Scientific Breeding Institute, a non-profit organization, in cooperation with the American Foundation For The Study Of Genetics, publicly-endowed, research center at Madison, reported the experimenters of the British scientists and have bred over 2,000 cows with frozen semen, some stored as long as 4 months.

This marvelous discovery can very well make it possible for a single proved bull to have possibly as many as 100,000 offspring through artificial breeding. While now three out of every four cubic centimeters of unfrozen semen is wasted, with frozen semen, every cc could be used. There will be fewer bulls in the stud, but better bulls producing many more offspring. This discovery will make possible a far wider distribution of the influence of great proved sires. It will be possible for the

average farmer almost anywhere in the country to have the mating of his cows to the best breeding bulls in the world at no more than the regular charge now being made. Semen banks will be the answer! Commercial breeding organizations will build up banks of semen from their area during the breeding season, thus obtaining the most economical semen for their area.

These semen banks will make it possible for dairymen to have service from a bull long after he has died. In natural service it is considered good if a bull has a few hundred offspring. Artificial breeding has boosted that figure into the thousands, and now with frozen semen, it could very well be into the hundreds of thousands.

Although frozen semen in the popular sense may seem a simple process, a tremendous amount of research and study still is being carried out by the researchers at both the Wisconsin Scientific Breeding Institute and the American Foundation For The Study Of Genetics.

Semen to be alive and of good quality must of necessity be frozen carefully through the low temperature range of 40 degree Fahrenheit to -110 degree Fahrenheit (temperature of dry ice) and then held until used. The British scientist discovered that this could only be done by giving glycerol as a bulking agent with the semen. The active of glycerol in the sperm is being the freezing and thawing.

The Wisconsin Scientific Breeding Institute is managed by the American Breeders Service of Chicago, the world's largest privately owned artificial breeding organization. The six ABS studs will breed over 800,000 cows this year with fewer than 150 proved sires. Rock County Breeders, of Janesville, Wisconsin one of the 283 organizations using ABS service, operated in the experiment, and their inductor, Dr. J. H. Grobe, artificially bred the cow having the first calf.

**SUGARCANE ACREAGE**  
(Continued from Page 1)

of 500,000 tons and provide a normal sugarcane inventory. The 1941 crop was the last crop in which restrictions were applied in the mainland cane area. Section 302 of the Act specifies that in determining proportionate shares for individual farms, the Secretary may take into consideration "past production" and "ability to produce". The Secretary is required to protect, insofar as practicable, the interests of new producers and small producers and the interests of producers, who are cash tenants, share tenants, and sharecroppers. In view of the importance of these considerations, the Department desires to obtain the views of interested persons.

To provide a basis for discussion of the meaning of the word "past production," the Department suggests the following method of establishing proportionate shares:

(1) Shares would be established in terms of acres of sugarcane planted for the production of sugar.

(2) A farm base would be established on the basis of having a record of acreage for sugar and seed during any year of the period comprising the crop years 1950, 1951, and 1952. This base would be established by adding (a) 50 percent of the highest acreage on the farm during any one of the years in the base period as the measure of "ability to produce" and (b) 25 percent of the sum of the acreage for the farm for the other two years of the base period as the measure of "past production."

(3) Except as provided below, proportionate shares for individual farms would be determined by applying to the sugarcane

farm bases the adjustment factor required to produce the quantity of sugar needed.

(a) The minimum share for any farm with acreage in any of the crop years 1950 through 1952 would be 10 acres.

(b) The share for any farm with a farm base between 10 acres and 25 acres would be the base for that acreage without a base and without acreage in 1953 would be 10 acres.

(c) The share for any new farm (a farm without a base and without acreage in 1953) would be 10 acres.

(d) Upon request of the producer the share for any farm may be increased up to 10 percent of the 1953 acreage.

(e) Provisions would be made for appeals.

Interested persons are also invited to present their views concerning the quantity of sugar which should be considered by the Secretary as a normal carrying capacity for the production of sugar. The quantity of sugar which should be considered for the production of sugar and the quantity of sugar which should be considered for the production of sugar.

Briefs may be presented at the hearing (in original and three copies) or mailed to the Director of Agriculture, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C., so as to be received not later than July 1, 1953.

The Department proposes to issue a determination in this matter prior to the planting period this fall.

## RISE MARKETS FIRM TRADING IS INACTIVE

Rice markets remained firm during the week ended June 18. The Department of Agriculture reported. The new crop continued to make favorable gains in Texas and Louisiana except where damage was caused by the recent floods. Planting continued to progress rapidly in Arkansas. In California, rising weather retarded the development of the new crop. Moderate quantities of milled rice continued to move to the East. The demand for milled rice remained slow, with prices generally unchanged.

World rice production in 1953 (August-July) was the largest on record. The total rough rice crop is estimated at 3,541 million cwt. a 4 percent increase over the previous year's crop of 3,429 million cwt. in 1952-53. The 1954-55 crop is estimated at 3,771 million cwt. a 7 percent increase over the 1953-54 crop of 3,523 million cwt. The 1954-55 production was about the same size as the largest world harvest in 1949-50. The 1954-55 production was about the same size as the largest world harvest in 1949-50. The 1954-55 production was about the same size as the largest world harvest in 1949-50.

**ROUGH RICE**  
No sales of southern rough rice were reported during the week. Planting of rice is most active in Louisiana, with the early seeded fields generally up to good stands except where flood damage occurred. In Arkansas planting progressed rapidly and is expected to be mostly completed this week.

California rough rice markets were inactive during the week with no sales by growers reported in the principal producing areas. Prices of rough rice were generally unchanged with No. 1 rough rice yielding 48 pounds milled head and 70 pounds total milled rice largely quoted at \$4.75 per 100, bulk country warehouse receipt basis. New crop conditions were less favorable than at this time in recent years due to unusually cool, showery weather and continued to retard development. Stands in a number of sections were reported to be thin and growth well below normal as a result of the generally poor growing conditions to date and serious plant insect infestation.

California mills processed 229,454 cwt. of rough rice during the week compared with 218,071 in April and 253,834 in May 1952. May millings brought a total for the season close to 1 up to 8,501,167 cwt. against 8,546,923 during the same months last season. Stocks of rough rice at mills at the close of May totaled 378,135 cwt. compared with 189,818 one year earlier. On the basis of the December crop estimate, supplies of California rough rice remaining June 1 for milling, export, or carryover amounted to 3,500,000 cwt., as against 3,000,000 a year earlier and 2,600,000 two years back.

**MILLED RICE**  
Milled rice markets continued firm with prices about unchanged. At Houston, No. 1 long grains were quoted at \$14.75-15.25, No. 2 13.75-14.25, long grain medium heads \$9.50, short grain second heads \$9.00, screenings \$2.90-3.35, and brown \$1.35-1.50.

brought the total arrivals from the United States since August 1 to 3,585,454 cwt.

## FLORIDA MANGO FORUM IN MIAMI JULY 8th

Miami's Bayfront Auditorium has been selected for the thirteenth annual Florida Mango Forum, to be held on Wednesday, July 8th. This, as usual, will feature a large exhibit of introduced and native Florida varieties of the world's most delicious fruit as well as exhibits of products of the mango and all the supplies and materials needed in its production and marketing. Those persons having fruit to exhibit may contact Mr. Roscoe Glenn, Miami, who is Variety Exhibit Chairman. An exhibit needs badly three fruit, but there is no fee for exhibiting, but the fruit exhibited becomes the property of the Florida Mango Forum. The annual program will take place in an adjoining room and will include the usual practical and scientific papers given by research workers and growers.

Mr. David Hughes of Miami is General Display chairman. Exhibits of a commercial character, under the direction of Mr. Raymond Turner, Miami, will include mango nurseries, gift packages, processed mango products (both in glass and in cans), and many supplies necessary in the growing and marketing of Florida mangoes.

Because mango growers come from all over the State, plans have been made for two separate tours to visit points of mango interest in Dade County. A tour of the Tropical Experiment Station at Homestead will include an opportunity to see some of the extensive new nurseries to grow plantings of the south part of Dade County. The escorted tour will leave the intersection of Tamiami Trail and Highway No. 1 in Miami at one o'clock, Tuesday, July 7th. This is in charge of Mr. F. C. Williams. The day following the Forum that is, Thursday, July 8th, another tour will leave the same point at nine A. M. and will go to the South Campus of the University of Miami to visit the Food Technology Department and the Department of Horticulture.

The Florida Mango Forum Fellowship dinner, to be held at seven o'clock at the Bayfront Auditorium on Tuesday evening, July 7th, will be an opportunity for "mango maniacs" to meet one another in an informal atmosphere. Mr. D. F. McConnell, dinner chairman, is in charge of reservations. Attendance at this, as well as at the exhibit and program on the following day, open to the public as well as to members of the Florida Mango Forum, is the officers and Executive Committee who guide the affairs of the Forum include: President, Miss Olga M. Kent; Vice-President, Col. Kevin O'Shea, Bradenton; Secretary, John Campbell, Homestead; Treasurer, Frank Smithers, Jr.

Arrivals of American rice in the United States during the week ended June 4 totaled 667 cwt. This

## Installing Overlap Insulating Siding

This line sketch indicates the general procedure for installing overlap insulating siding so that the pattern and shadow lines are in proper alignment. Starting at the lowest corner of the building, you install a full panel of siding panels vary in width from 9 to 15 inches and in length from 44 to 48 inches, according to pattern and manufacturer. After the first course is completed along one side of the building, a second course is started, this time only one-third of a panel. The third course starts two-thirds of a panel. The fourth course starts the cycle again with a full panel.

Pieces cut from starting panels should be saved for possible use at the opposite end of the course. Or they can be used around doors, windows and chimneys.

Each panel requires 14 to 16 nails made of either black enameled galvanized iron, or coated with asphalt. Nails should be hammered snugly into panels but never driven deep enough to rupture the asphalt coating on the siding.

Miami Beach; Dr. Roy Harkness, Homestead; John Lauderbach, Dr. B. F. Hart, Ft. Lauderdale; M. U. Mounts, West Palm Beach; L. H. Zill and Vincent Gallagher, Delray Beach; and W. W. Carmichael, Perrine.

## AUTO ENGINEER

Lois Lucille Pielt, a graduate automotive engineer, is the first woman ever known to represent the Chrysler Corporation, of New York, in touring the United States with Chrysler's automotive show, "New Worlds in Motion," which is next scheduled for Milwaukee, Wisconsin, June 18.

Miss Lucille Pielt, woman automotive engineer with the Chrysler Corporation, is the subject of a cover story in the July issue of *Care Magazine*, appearing on newstands across the country.

Care names Miss Pielt "Chrysler's Most Beautiful Engineer" and says of the blond Detroit, "Equally at home with automotive transmissions or apple pies, graduate engineer Lucille Pielt is a tough, tough, feminine gladiator to a male dominated

here's only one answer...

**Chevrolet trucks must be the best buy**

**CHEVROLET**

**First**

Fleet operators, farmers, independent truckers—truck users everywhere buy more Chevrolets than any other make. There can be only one reason: for that, Chevrolet trucks offer more of what you want.

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again and again, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks.

If you're a truck user, this fact is mighty important to you. Why? Well, as you know, trucks are built and bought for just one reason—to do a job. So isn't it logical that since Chevrolet trucks outclass all others, they must do a better job at lower cost? That's why it will pay you to stop in and see us before you buy your next truck.

**MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!**

### SOUTH BAY BEAN CITY LAKE HARBOR

Mr. and Mrs. John L. Evans and son, John Brown, Mr. and Mrs. Mark Challenor, Mike Jim and Vicki, Mr. and Mrs. Billy Rogers, Lillian and Billy, were weekend vacation guests at the Colonnades.

Mr. and Mrs. Clayton Waters had as house guests last week Mrs. G. M. Waters of Goshing, Mr. and Mrs. James Converse and children, Jimmie, Janice and Judy and C. G. Davis of Atlanta, Ga.

Linton Miller returned home Sunday from the Belle Glade Memorial Hospital, where he was treated for a light heart attack.

Lucy Pearl Kelso, daughter of Mr. and Mrs. F. M. Kelso of South Bay and Billy Jackson, son of Mr. and Mrs. James Jackson of Bean City were presented with the American Legion Auxiliary awards as members of the eighth grade graduating class, according to the announcement of Principal Peltier.

Clayton Miller and daughters, Florence and Mary Lou, are visiting his sister, Mrs. Verda Higginbotham and brothers, Linton, Oren and Dick Miller and their families.

Billy Bowen, Johnny Willis, David White and Dixie Adams left Monday morning with the

Palm Beach County 4-H boys' team, numbering 40 for a week 4-H Camp at Lake Florida.

Mrs. Bob Anderson of Port St. Joe and two daughters visited her niece, Mrs. Carroll Warren, and Mrs. H. B. Walker and their families on Saturday. She had been spending the week with her daughter in West Palm Beach.

Mr. and Mrs. C. I. Chaney and four children, formerly of Bradenton, moved to South Bay from Pahokee last week. He is manager in charge of the community at the South Bay Sugar Plantation.

Pauline Walker was the weekend house guest of her sisters, Miss Maxine and Miss Marlene Walker in Miami.

Mark Challenor started his travels with seasonal labor for Hamilton, N. Y. this week. He and his family will follow shortly to spend the summer in a day deep sea fishing off Jupiter Thursday and brought home 300 pounds of fish.

R. C. White, Bill Morrison and their house guest, D. E. White of Lineville, Ala., enjoyed a day deep sea fishing off Jupiter Thursday and brought home 300 pounds of fish.

Mrs. Cora Marlowe has returned from a week's vacation visit in Tampa with her daughter and son-in-law and grandchildren, Mr. and Mrs. Ellis Blumhagen, Richard Blumhagen and Harvey Pomeroy.

Mrs. S. L. Edman is leaving shortly with Miss Barbara Myers

and Mrs. Hilda Myatt for a vacation visit among relatives and friends in Edmond, Oklahoma, where they will visit in Charleston and Union Town, Pa. The Myatts in Richmond, Va.

Mr. and Mrs. W. N. Murphy of Lake Worth visited old friends here Sunday. They had brought a home on Military Trail and the Murphy family will teach the sixth grade in the Military Trail School next year.

J. B. Rhodes has returned from Abbeville, Ga., where he was visited by the illness of a brother. He was accompanied on his return by his son, Joseph, who has been living with his grandmother.

Mr. and Mrs. D. E. White of Lineville, Ala., Mrs. L. N. White and daughter, Maggie Bell of Millerville, Ala., left for their respective homes Saturday after a week's visit with their brother, R. C. White and sister, Mrs. Bill Morrison and their families.

Mr. and Mrs. C. E. Crisfield were weekend guests of Mr. and Mrs. Flavell Miller in Daytona Beach.

Mr. and Mrs. Peter Matsushak and family are on a two week vacation visit among relatives in Tampa and St. Augustine.

Mrs. Arzie Crevier of Wauchula visited her niece, Mrs. T. L. Driggers and family last week.

Mr. and Mrs. H. Richardson of Montgomery, Ala., visited her sister, Mrs. O. R. Bailey and Mrs. O. H. Martin last week.

Kenneth Warren and Pellon Morris made trip to Gadsden, Ala., with a load of cattle the first of the week.

Mrs. A. B. Barnes, Mrs. Leonard G. Keene, Patsy and Loyola of Pahokee left Monday for Ridgecrest, N. C. They will occupy the Irene Dawson cottage and attend the Baptist Convention program, Miss Dawson of West Palm Beach is expected to join them next week.

Frank Land, Jr. of Fort Myers is spending the week with his cousin, Miss Ann Driggers.

Mr. and Mrs. Orson Fussell and three children, Connie, Linda and David of Jacksonville visited here Sunday. They are visiting their parents, Mr. and Mrs. Gary Sanders in Pahokee and sisters in Clewiston and Moore Haven.

Melvin Herring, Virginia Kelso and Jane Allen made a trip to Bristol to bring Mrs. Herring and Richard home from a two week visit with relatives at that point.

Mrs. Marvin Davis and son, Bryant, have returned from Donaldsonville and Blakely, Ga., where they visited her mother, Mrs. W. M. Shoultz and family. Mrs. B. H. Turner, Butch and Bertram remained for an extended visit with their grandmother.

Mrs. H. B. Walker and Mrs. Edna Walker accompanied by Neil and Rhonda Walker took Byron and Rodney Walker to Miami Sunday, where they enrolled at Jackson Hill for a six weeks summer school. They will stay with Miss Maxine and Miss Marlene Walker during the summer session.

Mr. and Mrs. Clayton Waters are on a week's vacation during which they will visit relatives in Atlanta, Ga., Chattanooga, Tenn., and enjoy an outing in the Smokies.

#### HONORED AT PARTY

Gail Sullivan of South Bay was honored on her third birthday at a door party in Evans Park given by her mother, Mrs. Judy Sullivan and aunt, Mrs. Mary Waters, Friday afternoon, May 15.

Ice cream, cake and soft drinks were served to John Lee, Richie, Duane and Betty Lou Henderson, Vicki Challenor, Sharon Roberts, Cathy Lou Morris, Johnny, Bobby and Wayne Registre, Doris, Dick and Dan Willis, Dennis Wayne Purlain, Laura and Billy Rogers, Joan Willis, Daryl Sanders, Brenda and Edwin Walker, Pamela and Douglas Cooper, Diane, Danny and "Bo" Shiver, Gwen and Jimmie Warren, Margaret and Donald Baker, Brenda and Kenny Kelley, Rhonda Walker, Ivan Willis, Gary Walker, Fred Brown Evans, Norma, Gladys and Harry Dylcynnie, Dennis and Jimmie Jackson, Mike Wheeler, Judy, Janice and Jimmie Converse.

Mothers attending were Mrs. Ethel Jackson, Mrs. Ruth Wheeler, Mrs. Mary Louise Dylcynnie, Mrs. Jane Evans, Mrs. Ida Lee Walker, Mrs. Edna Kelley, Mrs. M. M. Bailey, Mrs. Emma Ruth Cooper, Mrs. June Rogers,

Mrs. Betty Willis, Mrs. Pellon Morris, Mrs. Henriette Register, Mrs. Margie Henderson, Mrs. O. E. Nail, Mrs. Ruth Sullivan, Mrs. G. M. Waters, Mrs. Anna Rha Converse.

#### HUSBANDS ENTERTAINED AT AUXILIARY DINNER

The South Bay Legion Auxiliary entertained their husbands and Legionnaires at a barbecued supper (rib dinner) at the Legion Hall Friday evening.

Those in the party were Mr. and Mrs. Eric Hartline, Mr. and Mrs. O'Neal Walker and Gary, Mr. and Mrs. H. B. Walker and Rhonda, W. C. Pate, W. C. Allen, A. O. Walker, Jr., and Miss Mary Faye Andrews, Mr. and Mrs. H. O. Mitchell, J. S. Haven, Mr. and Mrs. K. L. Warren, Mr. and Mrs. Earl Walker, Mr. and Mrs. J. C. Bowen, Mrs. S. E. Henderson, John Lee, Richie, Betty Lou and Duane Henderson, and Mrs. Edna Walker.

#### BIBLE SCHOOL OPENS AT SOUTH BAY

The annual South Bay Vacation Bible School opened Monday at the South Bay Baptist Church with a parade starting at the City Hall and ending at the church.

The registration on the opening day was 56 children in the 4 to 16 age group, the largest number being among the younger age groups.

Mrs. R. A. Hall of Bean City is Principal of the School and Mrs. W. M. Jeffries, Secretary. Mrs. Fred N. Cato, Mrs. D. N. Purlain and Mrs. Carroll Warren are in charge of the Beginners; Mrs. E. J. Leplehine, Mrs. W. M. Jeffries and Mrs. Kenneth Warren in charge of the Primaries; Mrs. Wanda Prevatt and Randa Hall in charge of Juniors; Mrs. Alice Lamoureux in charge of the Intermediates and Miss Wilma Little in charge of the Nursery.

Mrs. H. C. Willis and Mrs. D. L. Shiver form the hospital-ity committee to furnish daily refreshments.

The school will be in session for one week, June 15 to 20th, inclusive with classes in Bible Study, handicraft, music and recreation daily from 8:30 to 11:30 o'clock.

#### SOUTH BAY LIONS TO FURNISH GLASSES

The South Bay Lions made arrangements at the Mormon supper meeting at the Legion Hall Thursday evening for eye glasses for one of the school children upon recommendation of Principal Pellon Morris. He was instructed to contact Dr. H. Y. Creech, arrange for an examination and fitting of glasses.

Also to contact Principal Jensen of the Rosenwald School for any recommendations from his school.

Plans were discussed for erection of bleachers and back stop at the ball park. Treasurer Frank Willis announced the receipt of \$158.20 from the Lions weeks, proceeds of the Installation dinner at the Belle Glade Municipal Country Club and stated that there would be approximately \$150.00 to apply on the ball park after all bills had been paid.

President Eric Hartline presided. Mrs. Mary Waters and Mrs. Billie Hartline served a fried chicken dinner to members P. B. Willis, W. M. Jeffries, S. J. Fisher, P. W. Kelley, Pellon Morris, T. L. Driggers, Eric Hartline, Clayton Waters, R. C. White and Melvin Herring and their guests of the evening.

Mr. G. J. Barlow and D. E. White of Lineville, Ala.

#### Summer Recreation Program

The Palm Beach County Summer Recreation Program for South Bay and Lake Harbor, sponsored by the Palm Beach County Board of Public Instruction and the local Parent Teacher Association will officially open on June 22 and close on July 31.

Children of school age, 6 to 16, of the community are invited to enroll and enjoy the program. Advance registration at South Bay is 70 children.

Principal Pellon Morris will be in charge of the program both at South Bay and Lake Harbor. Regular supervised recreation will be conducted at the Lake Harbor School each morning from 8:00 to 12:00 o'clock and at South Bay from 1:15 to 5:15 o'clock.

A different theme has been assigned for each week. The first week will be registration week; the second will be patriotic week; the third, nature week; the fourth, school week; the fifth, tournament week and the sixth and last will be exhibition week.

This program is an annual summer program put on as a vacation project for recreation and improvement of the school children and includes, indoor and outdoor games, competitive games, handicraft work, swimming, character building, teaching of good sportsmanship and patriotism.

The supervisors are furnished by the County Board of Public Instruction and salaries paid out of regular school funds. The Parent Teacher Association and community are expected to furnish needed supplies and equipment for the program.

#### CORRECTION

By error last week it was reported that Julius Herring had been ordained deacon in the

Church of Latter Day Saints. It was instead his grandson, Michael Herring, son of Mr. and Mrs. Melvin Herring, who was recently ordained deacon. Elder Julius Herring, for years, a leader in the Everglades Church of Latter Day Saints, is now a member of the High Council.

Approximately 86 species of orchids are found growing wild in Florida.

#### LOCAL 4-H GIRLS FINISH COURSE

About 500 4-H Club girls finished a week of learning about homemaking at the Annual short course at Florida State University.

Friday night election of officers was held followed by a candlelight installation ceremony. Ann Ryland, Madison, Fla., was elected president of the Florida State Girls 4-H Club council. Three Belle Glade girls attended.

Winifred Barry led the assembly each morning in the pledge of allegiance to the flag. Cherry Corbin received the certificate for the Belle Glade girls and Jeannette Waddell participated in the dress review.

The girls learned to bake, can blackberries, sew and fit clothing, use dry milk to make fruit whip, and to make mufins with a dash of sweet potato.

The girls had a lot of fun, they went to Lake Bradford, where the University owns a camp, had a watermelon cutting, dress review and celebrated the founding of 4-H club.

foreunner, the Tomato Club, fifty years ago.

This was the 34th year of this short course and has been described as one of the finest so far.

**New! Better!**

#### DEARBORN REAR-ATTACHED MOWER

Can be attached to the Ford Tractor in a matter of minutes. Detached even faster. Two men with no oiling or any other job, and back again to mowing in a hurry. Can cut up to 30 acres a day, makes sharp, clean turns, backs into corners.

Improved, lightweight drive reduces vibration to a minimum for smoother performance, longer life. Can be lifted and lowered by Ford Tractor Hydraulic Traction Control. An automatic reverse pedal cuts bar in swing to rear when it hits an obstruction.

Center bar can be tilted to four positions. Tapered roller bearings in Pinion Drive. 6 ft. or 7 ft. cutters-bar. If you want a rear mower, see this new Dearborn "Rear Attached" Mower before you buy!

### New CASE

### Field Forage Harvester

Here's a sturdy machine which provides a real short-cut in the making of corn or sorghum silage. In one power operation, the Case field forage harvester cuts the standing row crop, chops it into short, uniform lengths, and loads the chopped material into truck or wagon driven alongside or trailed behind. Also may be equipped with pick-up attachment for windrowed hay crops, green or dry. See us about it.

## Plenty of HOSTILE from the instant you START

THE automobile pictured here is Buick SPECIAL with Twin-Turbine Dynaflo®. And it's a sizzler in supple satin.

You discover that truth when you take its wheel—when you try it for getaway—when you head it up tall hills—when you guide it by a truck on a safe-passing stretch.

The instant you want to move, you move. You can swoop from standstill to a legal 30 mph quicker than quick. Fact is, this spectacular new TT Dynaflo gives you swift getaway, plus silence, plus smoothness, in a

combination no other automotive transmission in the world can equal.

The instant you want a lightning burst for passing, it's there—velvet forth from a Fireball 8 Engine with the highest horsepower and compression ratio ever to power a Buick SPECIAL.

The truth is, the instant you feel this big, broad, thrill-charged beauty in motion, you'll know it for a performance automobile—nimble and eager, responsive as quicksilver.

But exhilarating action is just part of the story here.

There's a spacious roominess. There's a magnificent ride. There's superb handling ease. And to cap it all, this Buick delivers for little more than the "low-priced" cars.

Why not drop in on us this week? We'll be mighty proud to have you try the greatest Buick SPECIAL yet built.

\*Standard on Roadmaster, optional at extra cost on other Series.
